No. $^{4830}_{111}$ of 1913.

FROM

THE HON'BLE SIR ELLIOT GRAHAM COLVIN, K.C.S.I., Chief Commissioner of Ajmer-Merwara, oT

THE SECRETARY TO THE GOVERNMENT OF INDIA IN THE

Dated Mount Abu, the 17th October 1913.

SIR,

I have the honour to submit the annual administration report of Ajmer-Merwara for the year 1912-1913, compiled by the Commissioner Mr. A. T. Holme, I.C.S., with my remarks thereon.

I have the honour to de,

SIR,

Your most obedient servant,

E. G. COLVIN, Chief Commissioner of Ajmer-Merwara.

Remarks by the Honourable the Chief Commissioner, Ajmer-Merwana.

The year was only a moderately good one, the rabi crop being very poor in the Todgarh Tabsil, and the Kharif crop having failed in portions of the Beawar Tabsil.

2. Imperial revenues showed a small surplus of Rs. 45,654.
3. The Excise receipts increased by Rs. 5,641, chiefly under the head of country spirits, in spite of the enhanced rates imposed during the preceding

year on country liquor.

4. The Ajmer Municipality are to be congratulated on having at last matured a scheme, which affords good prospects of success for an additional water-supply to the city and on their amicable negotiations with the Bombay, Barods and Central India Railway authorities in regard to taxation and co-

operation (paragraphs 164 to 166); also on the utilisation of the Government grant of Rs. 1,20,000 improving their conservancy system.

5. The year has been noticeable for a great expansion in the number of Co-operative Credit Societies and for the introduction of measures under the Ajmer Taluqdars Loan Regulation (1911). These matters should receive more Ajmer Taluqdars Loan Regulation (1911).

detailed notice in the report for next year.

By order,

A. D. BANNERMAN, Lt.-Colonel, First Assistant to the Hon'ble the Chief Commissioner of Ajmer-Merwara.

KELOKL

ON THE

ADMINISTRATION OF AJMER-MERWARA.

FOR

1912-1913.

SECTION I.

GENERAL ADMINISTRATION.

I. The charge of the office of Commissioner, Ajmer-Merwara, was held as Personnel. follows:—

Lieutenant-Colonel W. C. R. Stratton, C.I.E., I.A., from 1st to 30th

Lieutenant-Colonel W. C. R. Stratton, C.I.E., I.A., from 1st to 30th April 1912; Captain W. G. Hutchinson, I.A., from 1st May to 9th June 1912; and Mr. A. T. Holme, I.C.S., from 10th June 1912 to 31st March 1913;

2. Mr. B. J. Glancy, I.C.S., held the office of Assistant Commissioner, Ajmer, from lat April 1912 to 11th March 1913, on which date he handed over charge to Mr. D. G. Mackenzie, M.A., I.C.S.

3. Pandit Brij Jiwan Lal Sharma, B.A., held charge of the office of Extra

Assistant Commissioner, Merwara, throughout the year under report.

4. Lieutenant Colonel W. H. B. Robinson, I.M.S., held charge of the office of Civil Surgeon, Ajmer, from 1st April 1912 to 6th November 1912, on which date he was relieved by Lieutenant-Colonel R. C. MacWatt, F.R.C.S., I.M.S.,

who continued to hold the appointment to the end of the year.
5. Mr. R. E. Coupland held the office of Superintendent of Police.

5. Mr. R. E. Coupland held the office of Superintendent of Police, Ajmer-Merwara, from 1st April 1912 to 14th February 1913, on which date he

handed over charge to Mr. L. B. Goad.

6. The total revenue (Imperial and Local) of Ajmer-Merwara for the penditure (Vide year amounted to Re. 17,45,488 as compared with Re. 14,64,571 last year Statement 42). and the total expenditure was Re, 15,47,759-2-7 as against Re. 16,29,562 in 1911-1912. Imperial revenues rose from Re. 9,64,514 in 1911-12 to Re. 10,87,448 in the year under report, while the expenditure fell from Re. 10,99,261 in the preceding year to Re. 10,41,794 in 1912-13.

There was thus a surplus of Rs. 45,654 in the imperial revenues in 1912-13 as compared with a deficit of Rs. 1,34,747 in the year 1911-12.

The increase was due to increase in receipts and decrease in expenditure

SECTION II.

ADMINISTRATION OF THE LAND.

COURT OF WARDS.

Xear ending 31st July 1913.

7. Rai Sahib Munshi Gopi Nath held charge of the office of General Manager, Court of Wards, throughout the year.

8. From an agricultural point of view, the year (Sambat 1969) was a poor one. The rainfall was much below the average and not sufficient to fill the tanks or to supply sufficient percolation to wells. Consequently the barani or dry crops both in the khavif and rabi harvests were very poor. The rains in the month of August 1912, however, improved the growth of grass and the crops sown on well land. The prices of agricultural produce which ruled high throughout the year, as also the folder which was more than sufficient, went a great way to mitigate the stress of the soarcity, so far as the 'estates and their great way to mitigate the stress of the soarcity, so far as the 'estates and their tenate were concerned.

9. At the beginning of the year there were ten estates under inanage-

10. The three estates noted in the margin came under management during the year.

11. Thakur Ranjit Singh of Pranhera having been convicted of a criminal offence was declared incapable of managing his estate, under Section 7 (I) (c) (ii) of the Ajmer Government Wards Regulation, I of 1888, and the Pranhera estate came under the Court's management in March 1918.

12. Raja Sadul Singh of Bhinai, who had been placed in charge of his estate in April 1912, became seriously ill, and was declared physically unfit to manage his property under Section 7 (1) (c) (i) of the Ajmer Government Wards Regulation. His estate was again placed under the superintendence

of the Court of Wards in June 1913.

18. Aftr Meherban Ali, Jagirdar of Jharwasa Bhattiani, being heavily involved in debt, was declared incapable of managing his property under Section 7 (1) (c) (iv) of the Regulation. His estate came under the Court's supervision on the 14th July 1913.

14. Thus there were 13 estates under the Court's management at the close of the year.

15. The year under report opened with a cash balance of Rs. 86,674 besides Government Promissory notes of the face value of Rs. 3,62,100.

16. The income of the estates under management was Rs. 2,11,944. The total credit including opening balance amounted to Rs. 2,98,618 as detailed below:—

(1) AIMER-MERWARA POLICE. (YEAR ENDING THE 31ST DECEMBER 1912).

Vide Statements Compiled by L. M. Kaye, Esq., Inspector-General of Police, Ajmer-Merwara. Nos. 4 to 100. 32, Mr. R. R. Coupland held charge of the office of Superintendent of Police throughout the year.

INCREASE AND DECREASE IN REPORTED COGNIZABLE CRIME.

83. The total volume of cognizable crime reported in 1912 was 5,419 as compared with 4,730 in 1911 and 3,784 in 1910. These figures include cases reported to the police and also those reported direct to Magistrates. Comparing the figures under each of those heads with the figures for 1911 it will be found that cases reported to the police have increased by 15 per cent, and those reported to Magistrates by 4 per cent.

34. Following the practice of former years a table is given below from which details of the figures for each of the last two years under the main divisions of crime as shown in Statement A can be ascertained:—

This statement shows that, once again, the increase in reported crime is entirely confined to cases falling in Class VI, namely, miscellaneous offences which do not come under the Indian Penal Code.

35. In the two years ending December 31st, 1912, the number of such offences has risen from 1,545 to 3,514. This increase is entirely under the subnead "Public Nuisances." The Superintendent of Police explains the increase for 1912 in the following words:—

"The number of eases of public nuisances depends entirely on the activity or inactivity of the police in enforcing the provisions of Section 34 of the Police Act and of Municipal and Cantonment

cases that came before them." their confidence in police action by convicting 98 per cent. of sympathise with petty breaches of sanitary laws, have shown authority and that the latter, who are generally inclined to trates, that the former have not brought to notice any abuse of cases come before Cantonment Magistrates or Honorary Magissarily harassing but in answer to this I would point out that such offences. It may be objected that the action taken is unnecesneglect of the police in dealing with sanitary and other similar the close of 1909 when plague was rampant throughout the district and any attention was drawn to the comparative activity affects the crime returns to a remarkable extent. The increased activity of the police in this direction commences from such a large percentage of the total population, the effect of such In a district like this where the urban population is

The matter will form the subject of a separate enquiry. Police hardly meets the case in view of the remarks made in the report for did not exist in 1912 and the explanation given by the Superintendent of justified by the special circumstances of the year but those same circumstances vinces as a whole. The great increase in such cases in 1911 was held to be 36. This is no doubt quite true but the number of sanitary offences instituted by the police in Ajmer-Merwara during 1912 stands at 27 per thousand of the total urban population as compared with 3 in the United Pro-

the figures are swelled by a further increase in cases reported direct to Magisand this was attributed in part to the fact that, for several years immediately preceding 1911, exceptionally good harvests had been obtained. Moreover expected, in view of the almost total failure of the monsoon in Ajmer-Merwara, expected for 1912 but in the report for 1911 it was pointed out that the rise in ordinary crime that Jear had not been nearly as marked as might have been which existed in 1911 a somewhat lighter crime return might have been 37. Excluding cases in class VI, the total volume of reported crime shows a decrease of 44 cases or approximately 3 per cent. In view of the conditions

In the United Provinces the incidence (excluding sanitary offences) incidence for 1912 stands at 38.9 as compared with 39.2 for 1911 and 36.6 for for those very high figures, however, and, if such cases be eliminated, the large number of sanitary offences included in the returns is chiefly responsible 106 per 10,000 of population for 1912 as compared with 92 for 1911. The subject calls for further To solding one still prone to undertake enquiries without consulting the wishes of the Superintendent of Police admits that certain members of the investigating petty theft were proportionately more numerous than in the preceding year and larger percentage of cases of housebreaking or burglary enquiries into cases of 636 (or 38 per cent). It is noticeable that whilst investigation was refused in a In 1911 the number of eases into which no enquiry was made was 41. No investigation was made into 587 (or 36 per cent.) of the cases

42. The total number of police cases decided during 1912 was 3,905 against 3,175 in the preceding year. Of cases investigated 85 per cent, ended in conviction as compared with 82 per cent, in 1911 and 95 per cent, of the persons arrested by the police were convicted—that percentage being the same as for 1911. If prosecutions instituted for breaches of the earliery laws (in the majority of which conviction is, practically, a foregone conclusive (in the majority of which conviction is, practically, a foregone conclusion) be excluded the percentage of cases convicted to investigations stands at 45 for the year under report as compared with the same figure in 1911 and 43 in 1910, and the percentage of persons convicted to arrests at 82 against 43 and 79 in the two preceding years.

43. These figures compare very favourably with the statistics of the United Provinces for the year 1911 and, in consideration of the very large proportion of cases reported which were investigated, may be taken as indicating good work of cases reported which were investigated, may be taken as indicating good work

Class I.—Offences against the State, Public Tranquillity, Safety and Justice.

44. The number of true cases in this class dealt with by the police in 1912 was 16, of which total 11 ended in conviction while 2 were still undertrial at the close of the year.

45. Two offences relating to coin are returned for 1912 both of which were prosecuted to conviction. One was a case in which a man endeavoured to put into circulation a number of counterfeit two-anna pieces. He was convicted but the origin of the coins could not be discovered. The other was a petty case in which a piece coated with mercury was passed as an eight anna piece.

46. Fire escapes from custody occurred during the year under report as compared with L in the preceding year. In only one of those cases were the police to blame, however, and all but one of the absconders were re-arrested and convicted. Two constables were punished departmentally in connection with that one case.

47. Six cases of rioting or unlawful assembly were dealt with during the year, three of which ended in conviction while I was withdrawn and I was still pending at the close of III.

48. The only case of any importance was a riot which took place at Bhinai in connection with the Holi. Some time before that festival certain Mahomedans residing at Bhinai had objected to the route along which the Hindus proposed to take their Holi procession and to the singing of obsceno songs. The matter was reported to the district authorities with the result that a route had been laid down for that procession which would avoid offence and interference. In spite of this, however, when the time came the Mahomedans made an entirely unwarranted attack on the Hindus and drove them away. There was more than a suspicion that the local police were mixed up in this affair and, as they failed a suspicion that the local police were mixed up in this affair and, as they failed

to take proper action after the riot had occurred, the Sub-Inspector was punished departmentally. Nineteen persons were sent up for trial for participating in the riot and were, with one exception, sentenced to various terms of imprisonment and fine.

None of the other cases mere of special interest or called for detailed notice.

.nos not satisfied and the person.

49. Ninety-nine cases falling in this class were dealt with by the police in 1912 as compared with 88 in the preceding year. Fifty-three of those cases came before the Courts with the result that 35 were convicted, 13 acquitted and 5 were still under trial at the close of the year.

Subsequently the approver was himself convicted under section 404, Indian Penal Code, for dishonest possession of the Sessions Judge but, on appeal to the Chief Commissioner, the conviction was Those three persons were convicted by the third man was made an approver. As a result two men and a woman were sent up for trial whilst a ronnection with the murder of a prostitute named Mussammat Dhuli in August became emboldened by this and was finally accounted for by the police in ultimately proved to have been responsible for at least three of those murders caused a considerable amount of uneasiness in Ajmer. The gang police to detect the perpetrators of any of those crimes up to August 1912 had similar cases had taken place before the close of 1911 and the failure of the robbed of their ornaments by persons who visited them at their houses. 50. Cases of murder numbered 9 as compared with 10 in the proceding year. In five of those cases the victims were prostitutes who were strangled and

the other victims, in September 1912, but failed in his object and the same class as woman subsequently gave a full description of him to the police. It then transpired that a man of the same description had been connected with murders which had occurred in the previous June and in October 1911 but had not been traced. Further search was made for him in connection with this case but it has so far proved unavailing. Every precaution has been taken to ensure that immediate information is given to the police if a man of his description visits any woman of the unfortunate class but the Superintendent of reiption visits any woman of the unfortunate class but the Superintendent of Police is convinced that he was not a resident of Ajmer and the publication of his descriptive roll in Police Gazettes has failed to elicit any further clue there is not much hope that he will now be traced, since that last case no more murders of the same type have occurred in Ajmer and there is little doubt that the gang already mentioned were responsible for most if not all of those murders.

52. No other cases in this class call for special mention or presented any extraordinary features.

Cluss III.—Serious offences against person and property or against pro-

benth outh.

53. The total number of true cases of this class dealt with by the police in the year under report was 4.86 against 54.1 in 1911. Two hundred and eighty-seven of those cases were not investigated and, of the remainder, 63 were sent up for trial with the result that 52 ended in conviction, 6 in acquittal and 5 were still pending at the close of the year.

54. The number of dakaitis returned for 1912 is six as compared with ten in the preceding year. These were all attacks on travellers journeying along unfrequented roads and village bye-paths. Three of those dakaitis occurred in the course of one week, in January, in the Masuda Circle. Sansis of the war were once again suspected and, on information being received that a Mewar were once again suspected and, on information being received that a

large gang of that tribe was encamped just across the border, the Sub-Inspector of Masuda prevailed upon the Mewar Police to raid that encampment with the treath that much suspicious property was recovered. Part of it was claimed by the complainants in these cases but the identification was not sufficiently convincing to justify those cases being sent up for trial.

Gantonment and a village in Jaipur State the complainant professed to recognize, as the perpetrators, some Kanjars who were encamped in Jaipur territory nice, as the perpetrators, some Kanjars who were encamped in Jaipur territory could not subsequently be traced. The Superintendent of Police points out that there once again the refusal of the Jaipur Durbar to allow the Ajmerthan Police to cross the border in the course of their investigations or to make any arrests without previously obtaining a parama seriously hampered the investigation of this case and is much to be deprecated.

of crime but on December 2nd a party of Mahajans were set upon in one of the passes desing from Marwar to Todgarh by a gang of men armed with guns, bows and arrows, and swords and were dispossessed of all their property. In spite of a very full and careful enquiry this case, too, remained undetected though it was strongly suspected to be the work of certain Minas of the Sironi State who were also believed to be responsible for two serious dakaitis which took place about that same time in the Sojat police circle (Marwar) in villages at no great distance from the scene of this occurrence.

but as the Superintendent of Police remarks the return for 1912 proves yet once again how necessary it is that the police of the States which surround Ajmer. Merwara should be permitted to co-operate with the Ajmer Police as freely as the police of districts in British India co-operate with one another and that it is the lack of such co-operation which is mainly responsible for the greater portion of the dakaitis which occur in Ajmer-Merwara. Since the commencement of 1913 both the Udaipur and Jaipur Durbars have been addressed yet once again on this subject and it is to be hoped that the matter will receive more favourable consideration on their part than has been the case in the past.

58. Twelve cases of robbery are returned for 1912 as compared with $4 \sin t$ preceding year. Three of those cases ended in conviction, but the remainder π ere untraced.

59. The sudden rise in this serious form of crime is not satisfactory, but it must be borne in mind that the line separating robbery from dakaiti is a very thin one and that the returns show a considerable decrease in dakaitis. For some years, too, the number of robberies returned has been extraordinarily low and whereas, from 1906 to 1908, the average was 16 cases per annum, from 1909 to 1911 that average dwindled to five.

60. The Superintendent of Police has offered no explanation of these variations but the return for 1912 appears to have been swelled by three cases which occurred within half-a-mile of the Marwar border immediately after the Pushkar fair and by two technical robberies in which women suffered hurt from burglars as a right. All of those cases remained undetected.

61. The only other form of crime included in Class III which calls for special notice is housebreaking or burglary (serial No. 29). The number of true cases falling in that category stands at 472 for 1912 as compared with 516 in 1911.

of. The Superintendent of Police points out that the decrease occurred chiefly in the towns (Ajmer, Beavar and Nasirabad) where a regular system of patrolling is in force and attributes it to more efficient patrolling; the figures support this contention. The success met with in cases investigated has not been very marked but compares fairly favourably with the return for 1911. Of 189 cases investigated 58 came before the Courts and, of 58 tried out, 48 ended in conviction. Moreover in a considerable number of cases property ended in conviction. Moreover in a considerable number of cases property stolen by burglars was recovered from receivers which were prosecuted to conviction under section 411, Indian Penal Code. Altogether, though there has been no very marked success in dealing with this form of crime the work has been up to the average and compares favourably with that of the United has Leen up to the average and compares favourably with that of the United

Provinces Police. No cases of special importance occurred in the year under report.

Class IV.—Minor offences against the person.

63. Only two cases are returned under this class for 1912, of which one was compounded whilst the other was still pending at the close of that year.

Class V.—Minor offences against property.

64. Bight hundred and twenty-seven cases of this class were dealt with by the police in the year under report as compared with 848 in the preceding year. Investigation was made into 537 of those cases with the result that 311 were sent up for trial, 280 being convicted, 20 acquitted and 11 being still pending at the close of 1912.

65. Thefts of cattle rose from 52 to 70. Hight of those cases are returned as not enquired into. Of the remainder, 18 were sent up for trial with the result that 15 ended in conviction, and 2 in acquittal whilst 1 was still pending at the close of the year.

66. In addition to cattle-thieves convicted for the original offence 18 receivers were convicted under sections 411 to 414, Indian Penal Code, so that the number of convictions for cattle-thieving and cognate offences was 28. This is a slightly higher figure than in the two previous years.

67. On the other hand the number of cattle reported to have strayed which were never recovered rose from 176 to 226 and there can be little doubt that a considerable number of those animals were stolen.

matter of following up and tracing lost cattle have been dealt with fully in previous reports but as an illustration of this, it may be mentioned that the guerintendent of Police states that in no less than 15 of the cases returned as undetected in 1912 the stolen cattle were subsequently traced to adjacent Native States. In such circumstances it is of the greatest importance that, when cases are successfully worked out, really deterrent sentences should be passed. That this has not hitherto been the case is shown by the following extract from the report of the Superintendent of Police:—

"In cattle-theft cases the sentences are peculiarly lenient, the average sentence inflicted in 1912 on persons convicted of the original offence of theft or burglary in which cattle were stolen being only four months' imprisonment and Rs 7 fine, while the average sentence inflicted in cases of unlawful possession of stolen cattle was only 1½ months imprisonment and Rs. 12 fine."

The attention of the District Magistrate has been drawn to these facts. None of the other offences in this class call for special notice.

Class VI. — Other offences not specified above.

69. The number of eases of this class increased from 2,811 to 3,531. That increase was confined to offences falling under the head of "Public Muisances" and has already been noticed in paragraph 3 of this report.

70. All but seven of those cases came before the Courts with the result that 3,429 were convicted, 68 acquitted or discharged and 36 were still under trial at the close of the year.

71. Prosecutions for vagrancy and bad livelihood numbered 38 as compared with 47 in 1911. Only 4 of those cases came within the purview of section 110 of the Code of Criminal Procedure while the remainder were prosecutions for vagrancy under section 109 of that Code.

72. All the four persons proceeded against under section 110 were ordered to furnish security, the average amount demanded being Bs. 237 with an alternative of 13½ months' imprisonment. Security was furnished by two of those persons, the other two going to prison in default.

SURYEILLANCE OVER PERSONS WHOSE HISTORY-SHEETS HAVE BEEN PREPARED.

86. The number of history-sheets still maintained at the close of 1911 was 530. In the annual report for 1911 that number was quoted as 483 but it would appear that the correct number is as now stated. One hundred and eightysered those history sheets were discontinued for various causes, during 1912, but 118 new sheets were added.

87. At the close of the year under report therefore 461 history-sheets were still maintained and, of this number, 36 referred to criminals who had been reconvicted during the year.

S8. The number of persons who figured on the surveillance register at the close of 1912 was 94 and the percentage of persons whose history-sheets were maintained but who were themselves untraced was 15 as compared with 17 at the close of the preceding year. The difficulties met with by the Ajmer-Merwara Police in maintaining effective supervision over such criminals has been fully dealt with in previous reports and, until adjoining States will introduce the system in force in British India and will see that it is acted up to by their police, there is little hope of improvement in this respect.

STRENGTH, COST AND EMPLOYMENT OF THE POLICE.

90. An increase of I Head Constable and II Constables took place in the year under report. This was in connection with the relief of the Kekri Municipality from all police charges and the substitution of constabulary for the chaukidari force formerly maintained in that town. All Municipalities in Ajmer-Merwara have now been relieved of police charges. The actual cost of Ajmer-Merwara have now been relieved of police charges. The actual cost of the force rose from Rs. 1,90,309 to Rs. 1,98,573. This increase was due, in part, to the addition to the force referred to above and in part, to better recruitment.

Вемьвре вир Роиганмеита,

91. One hundred and twenty-one members of the force were rewarded in 1912 as compared with 122 in the preceding year. The total amount paid in rewards, from all sources was Rs. 1,719: in 1911 it was Rs. 1,794. This variation does not call for any explanation.

92. The total number of punishments inflicted was 38 as compared with 39 in 1911 and included 3 judicial punishments, 17 dismissals and 18 other

departmental punishments.

93. It is satisfactory to note that the punishment-roll is once again not a heavy one. In no case was it found necessary to interfere with the order of the Superintendent of Police on appeal and Mr. Coupland is to be congratulated on the discrimination he has shown in taking up departmental cases against his subordinates.

HEALTH.

94. The health of the force was not quite so good as in the preceding year but compared favourably with that for 1910. Nine deaths occurred in 1912 and admissions to hospital totalled 49 per cent. of the actual strength. In 1911, the figures were 4 and 37 respectively.

184. The total income and expenditure during the year amounted to Re. 14,545 and Re. 9,413 as against ks. 9,716 and Re. 9,958 respectively in the year 1917-12. The closing balance on the 31st March 1913 amounted to Re. 11,232 inclusive of Re. 2,000 invested in Government securities.

185. The increase of Rs. 4,838 in receipts is mainly under head Octroi which is the chief source of income of the Municipality and shows an increase of Rs. 4,677. This increase is chiefly due to a considerable increase in the imports of commodities owing to the celebration of a large number of marriages and the holding of funeral feasts this year, as also to the introduction of the new Octroi schedule.

186. The decrease of Rs. 545 in expenditure was mainly under heads "Police," "Conservancy," and "Garden and Arboriculture."

187. The Committee have been relieved of all expenses incurred in con-

nection with the maintenance of the Municipal Police from 1st May 1912.

188. The incidence of Octroi taxation was Rs. 2-0-4 per head of the popula-

tion during the year under report as against Rs. 1-8-9 in 1911-12.

189. The number of births and deaths recorded during the year was 232 and 231 as against 173 and 246 respectively during 1911-12.

190. Rules regarding the assessment and collection of Octroi in the Kekri Municipality and the new Octroi schedule were sanctioned by the Hon'ble the Chief Commissioner, Ajmer-Merwara, during the year 1912-13.
